

Physician Assistant-Nurse Practitioner Orthopedic Injury Clinic - Concord

Concord Orthopaedics is a large (22 physicians) multidisciplinary musculoskeletal group in central New Hampshire. Our main office is located in Concord New Hampshire and we have three satellite offices within 30-45 minutes of our main campus. We are looking for an experienced physician's assistant or nurse practitioner to help with staffing of our Acute Injury Clinic (AIC) in the Concord office. This clinic is designed to provide urgent access for patients with acute musculoskeletal injuries (sprains, strains, contusions, etc). A physician assistant with 15 years of orthopaedic experience currently staffs the clinic. We are in need of more capacity and hence looking to add additional providers.

The ideal candidate would have experience in an orthopedic office with a skill and knowledge base that would allow independent evaluation of new patients that access the acute injury clinic. Experience in an urgent care setting or ER would be considered as well. Opportunities exist for on the job training for a provider with less experience and the right interpersonal skills. There is always supervision from physicians on-site who are available for consultation for complex or unclear cases. Great rapport with patients and staff are critical to success in this position.

Our office has state of the art facilities with digital x-ray, MRI, electronic medical record, physical therapy all within the Concord office. We offer competitive salary and benefits packages and starting salary would be commensurate with years of experience.

Concord is located roughly one hour north of Boston and is one hour to multiple recreation areas (lakes, mountains, ocean) within the state. Manchester International Airport is only 35 minutes from Concord. Interested candidates should contact our Administrator at the address or phone listed below this advertisement.

Carl Moskey, Administrator
Concord Orthopaedics
264 Pleasant St
Concord, NH 03301
